Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Claims 5-7 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 07/10/2009.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4 & 8-11 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent #5,931,390 to Hoffmann et al.

Hoffman discloses an injection nozzle (valve (1)) comprised of a cartridge (valve housing (6)) which comprises a recess (annular space (12)) and a needle (plunger (8)) arranged within the recess and being operable to close the injection nozzle when resting in its seat area on a needle seat (valve seat(20)) of the injection nozzle, wherein an area of the injection nozzle adjacent to the needle seat has an inner diameter contour (Inner wall of valve housing (6)) and a cylindrically-shaped outer diameter contour (outer wall of the valve housing (6)). The needle has a cylindrically shaped area (shoulder (10)) adjacent to the needle seat, where the outer diameter contour of the injection nozzle adjacent to the needle seat (the point on valve housing (6) where the shoulder (10) contacts) and the cylindrically shaped area of the needle have the same outer diameter. The valve body further includes the needle seat and the seat area of the needle being conically shaped (defined by closure cone (22)). The valve body further

Art Unit: 3752

comprises an area adjacent to the area adjacent to the needle seat wherein the outer diameter of the injection nozzle is increasing in the direction away from the injection nozzle (See Figure 1, outer diameter of the valve (1) increases as when further from the injection nozzle). The fluid injector comprising a housing (injector housing (2)) and an actuator unit (piezo stack (4))

Response to Arguments

4. Applicant's arguments with respect to claims 1-4 & 8-11 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
